

# **AUTOMATION & ROBOTIC SYSTEMS INTEGRATION THAT'S OPTIMIZED FOR YOUR BUSINESS**

# **INDUSTRIAL & COLLABORATIVE ROBOTICS**

EMEA ELECTRO SOLUTIONS, works with the best automation & robotics OEM in the market, with more than 35 five years deep experience and business strength will yield superior solutions that are thoroughly designed to maximize your ROI and value.

## **EMEA ELECTRO SOLUTIONS UNDERSTAND YOUR BUSINESS**

We have extensive design, build and installation experience, with hands-on expertise developing robotic systems integration in your application. We help you find solutions that improve all aspects of your operation.

We will explain the system features and how everything will work together to deliver the best results.

## **WILL KEEP YOU UPDATED ON SYSTEM PROGRESS**

Keeping you informed at every step is vital for a successful integration. We offer a designated manager to supervise all aspects of your project, including the scope of work, team transitions, internal and customer run-offs.

## **SERVICE**

We have trained technicians nearby enough for your service needs and have a strong reputation. Our service engineers are available whether service consists of on-site repairs and includes process improvement, preventive maintenance and remote troubleshooting

## **SAFETY**

All our systems meet industry and your own company's safety standards. Emea Electro Solutions offer safety audits to accommodate any special requirements and CE certificate in all our installations.

## **TRAINING**

Emea Electro Solutions will provide training to your employees once the system is in place, along with ongoing support and maintenance.
